

# SENG 321 Lab 2

January 23 2024

## Some updates

- RFP grading was lenient. Take your feedback seriously, we will deduct marks for repeated mistakes moving forward.
- Your next deliverable is your **requirements document** (Sections 1, 2, 3, 4).
- Thursday's lecture will delve into how to document requirements. It's not easy!

# Project Assignments

Developer Team Number	Project Assignment
Team 1	Team 9- Diet Bugs - Nutritional Planning
Team 2	Team 5- Volcano Funds (International Bank Transfers)
Team 3	Team 8 - Nursing Shift Management
Team 5	Team 3 - BC Consumer Protection
Team 6	Team 2 - Business Analytics Inc.
Team 7	Team 6 - Photography Customer Schedule
Team 8	Team 1 - Banter Ice Cream
Team 9	Team 7 - Skate Equipment

## What do I do today?

- Take a look at your client's GH repo (read access only)
  - Look at the RFP.
  - Plan your elicitation session (this is tomorrow!)
- Take a look at what your developers may be asking you (RD).
  - What information do I need to make up / find before tomorrow?

# What do I do tomorrow?

- Tomorrow's lab is to interview your client team.
  - Divide your group into developers (suggested 2-3) and expert clients.
- In your team, you should also come up with a developer team name (different than your client team name)

## Reminder

- Watch for capitalizations in your document
- Please hand in a markdown file for all your RD deliverables
- Iteration 1 has a success metrics subsection, you will need to know how clients define and measure success
