

SENG 321

Feb 6 2024

Today

- Please follow your checklist when going through the developer's RD.
- Comments/concerns/questions are **each** raised as a GH issue in the developer repo.
- You will be graded on the quality of feedback given to the RD (due tonight 11pm).

Tomorrow

- More elicitation time to sort out the concerns raised in GH issues.
 - Your team should split up into clients and developers again (as you did last time)

| Assignment | % Worth | Who's responsible? |
|--|-------------|--------------------|
| INDIVIDUAL (total: 40%) | | |
| 6 quizzes | 30% | Individual |

| Reviews of Requirements Document (incl. Prototypes) | 5% | Group |
| Professionalism | 2% | Group |
| | | |
| Developer Role | 35% | Group |
| Requirements Document | 28% | Group |
| Final Presentation | 5% | Group |
| Professionalism | 2% | Group |
| | | |
| Group Dynamics | 12% | Individual |
| Teamwork | 7% | Individual |
| Team Assessment reports | 5% | Individual |
| Total | 100% | |

Requirements Doc: Common Mistakes

- ambiguous , ambiguous, ambiguous
 - Single v. plural
 - Most things can be stated in the singular case.
- Things to consider when writing requirements:
- Is it measurable?
- Who is doing what? (which user(s))?
